**IATF 16949:2016 and RULES-5  
will be available at the event.**

Join representatives from the International Automotive Task Force (IATF) and a representative from the International Automotive Oversight Bureau (IAOB) as they bring you up to date on what changes in the new standard mean to you and when certification needs to be completed.

### Why Attend?

In the **Automotive Standard Update** session, attendees will hear about the changes directly from members of the IATF 16949 revision project team. So you will hear not only what changed, but why.

- *Scott Gray: Member of the IATF 16949 Revision Team and Quality Program Director, AIAG*
- *OEM Representative of IATF – TBD*

In the **Certification Rules Session**, important changes to the Rules for Achieving and Maintaining IATF Recognition will be explained. The revision to these rules affect both the Certification Body (CB) and the site wanting to become Certified.

- *Guillermo Leon, Witness Auditor, IAOB*

In the **Transition Strategy Update**, guidance on navigating the constraints on the transition process will be shared with the attendees.

- *Guillermo Leon, Witness Auditor, IAOB*

Attendees will also get the latest information on tools and training courses offered by AIAG to support the suppliers in successful transition to IATF 16949.
